

Did You Know?

Here at Kiddie Prep School our classrooms use something called
“The Creative Curriculum”.

The Creative Curriculum for Preschool is one of the most widely used Pre-K curricula in the nation. It’s research-based, comprehensive, and it features exploration and discovery as a way of learning.

In this week’s video we see kids using their fine motor skills and planning as they build gingerbread houses, others are working on body control and self regulation techniques during morning circle time. And we close with a group of friends who are using ZooPhonics to identify their letter names and sounds.
