

Did You Know?

Here at Kiddie Prep School our classrooms use something called
“The Creative Curriculum”.

The Creative Curriculum for Preschool is one of the most widely used Pre-K curricula in the nation. It’s research-based, comprehensive, and it features exploration and discovery as a way of learning.

In this week’s video, 3 year olds are exploring their imaginations, fine motor skills, and engineering as they build with Legos as they create homes; thinking through what all is needed in a house.

Pre K students are seen exploring a sensory bin with their kinetic sand where they not only use fine motor skills but also expand their vocabulary.

Young 2 and 3 year olds are writing and drawing as they learn how to hold a smaller pen and work through the beginning stages of writing.
